Pooyan Software Product Line (PSPL) Building Blocks

PSPL Building Blocks

Business Process Management Suit	Software Product Patent for Presentation Layer	Advance Technology

BPM Methodology	BPM Software	MVC	MVVM	SPA(Single Page Application)	Dependency Injection, Singleton	Entity Framework Code First	Repository Pattern	SOA Pattern	Business Intelligent	Data Warehouse	Enterprise Service Bus

PSPL Glans Intro:

- **Business Process Management Suit**

  - **BPM Methodology**
    - Enterprise Architecture To Level ۶[1]

    - Business Process Modeling Notation (BPMN ۲,۰)

  - **BPM Software (Intalio Cloud – Pooyan is Implementation Partner)**
    - Process Designer
    - Process Server
    - Service Bus
    - Form Engine (Rich form fast design – object builder)
    - BRE Engine
    - Report Engine
    - Portal (SSO[2])

- **Software Product Patent for Presentation Layer[3]**
    - MVC
    - MVVM
    - SPA(Single Page Application)
    - Dependency Injection, Singleton
    - Entity Framework Code First
    - Repository Pattern
    - SOA Pattern

- **Advance Technology**
    - Business Intelligent (BI) Solution- Pentaho BI (Open Source)
    - Data Warehouse (DW) - Talent - (Open Source)
    - Enterprise Service Bus (ESB) – Talent/Supera (Open Source)

---

[1] Pooyan has developed Analysis and Design methodology for Enterprise Software Solution base on Zachman framework for Enterprise Architecture

[2] Single Sing On (SSO)

[3] The Best Solution for developing Multi-Platform Software solutions (windows App, Mobile App (android, IOS, windows Phone, Blackberry, Symbian and other) in parallel using one source code, The best framework for super large scale applications, None dependency to any RDBMS and Programming languages
